

# Inhalt/Contents

- Andersson M: Integral representation with weights II, division and interpolation 315
- Bae S: Punctured distributions of global function fields 385
- Bars F, Dieulefait L: Galois actions on  $Q$ -curves and winding quotients 531
- Bauer H: Zeros of Asai-Eisenstein series 219
- Böcherer S, Heim BE: Critical values of  $L$ -functions on  $GL_2 \times GL_2$  485
- Boyd C, Lassalle S: Centralisers of spaces of symmetric tensor products and applications 539
- Brede M: Eine Reihenentwicklung der vervollständigten und ergänzten Riemannschen Zetafunktion 751
- Bürgin M, Draisma J: The Hilbert null-cone on tuples of matrices and bilinear forms 785
- Cegrell U: Weak\*-convergence of Monge-Ampère measures 505
- Chen Q, Jost J, Li J, Wang G: Dirac-harmonic maps 409
- Chow B, Glickenstein D, Lu P: Collapsing sequences of solutions to the Ricci flow on 3-manifolds with almost nonnegative curvature 1
- Cornelissen G, Mézard A: Relèvements des revêtements de courbes faiblement ramifiés 239
- Dehman B, Gérard P, Lebeau G: Stabilization and control for the nonlinear Schrödinger equation on a compact surface 729
- Dieulefait L → Bars F
- Draisma J → Bürgin M
- Dyakonov KM: Addendum to "Strong Hardy—Littlewood theorems for analytic functions and mappings of finite distortion" 433
- Engel S: On the geometry and trigonometry of homogeneous 3-manifolds with 4-dimensional isometry group 439
- Fraboni M: Some  $q$ -convexity properties of coverings of complex manifolds 553
- Fragalà I, Gazzola F, Kawohl B: Overdetermined problems with possibly degenerate ellipticity, a geometric approach 117
- Frehse J, Kassmann M: Nonlinear partial differential equations of fourth order under mixed boundary conditions 33
- Gaussier H, Sukhov A: On the geometry of model almost complex manifolds with boundary 567
- Gérard P → Dehman B
- Glickenstein D → Chow B
- Gazzola F → Fragalà I
- Harjulehto P, Hästö P, Latvala V: Sobolev embeddings in metric measure spaces with variable dimension 591
- Hartmann R, Paget R: Young modules and filtration multiplicities for Brauer algebras 333
- Hästö P → Harjulehto P
- Heikkala V, Vuorinen M: Teichmüller's extremal ring problem 509
- Heim BE → Böcherer S
- Hessami Pilehrood KH, Hessami Pilehrood T, Zudilin W: Irrationality of certain numbers that contain values of the di- and trilogarithm 299
- Hessami Pilehrood T → Hessami Pilehrood KH
- Hyyrö E, Nakamura Y, Ojala L: Adjoint ideals and Gorenstein blowups in two-dimensional regular local rings 767
- Janko Z: On maximal cyclic subgroups in finite  $p$ -groups 29
- Jardine JF: Fibred sites and stack cohomology 811
- Jost J → Chen Q
- Kassmann M → Frehse J
- Kawohl B → Fragalà I
- Kohnen W, Sengupta J: On the first sign change of Hecke eigenvalues of newforms 173
- Kotani M, Sunada T: Large deviation and the tangent cone at infinity of a crystal lattice 837
- Lassalle S → Boyd C
- Latvala V → Harjulehto P
- Lebeau G → Dehman B
- Lenzing H, Reiten I: Hereditary noetherian categories of positive Euler characteristic 133
- Li J → Chen Q
- Link G: Ergodicity of generalised Patterson-Sullivan measures in higher rank symmetric spaces 611
- Lu P → Chow B
- Lyubeznik G: On some local cohomology invariants of local rings 627

Mézard A → Cornelissen G

Nagy P-A: On length and product of harmonic forms in Kähler geometry 199

Nařamura Y → Hyry E

Ojala L → Hyry E

Paget R → Hartmann R

Pál A: Proof of an exceptional zero conjecture for elliptic curves over function fields 461

Powell GML: Endomorphisms of  $H^*(K(V, n); \mathbb{F}_2)$  in the category of unstable modules 55

Reiten I → Lenzing H

Röger M, Schätzle R: On a modified conjecture of De Giorgi 675

Schätzle R → Röger M

Schicho J: The parametric degree of a rational surface 185

Schmüdgen K: A strict Positivstellensatz for enveloping algebras 641

Sengupta J → Kohnen W

Sukhov A → Gaussier H

Sunada T → Kotani M

Ülger A: When is the range of a multiplier on a banach algebra closed? 715

Valdinoci E: Flatness of Bernoulli jets 257

Vuorinen M → Heikkala V

Wang G → Chen Q

Wei J, Winter M: Standing waves in the FitzHugh-Nagumo system and a problem in combinatorial geometry 359

Winter M → Wei J

Yang D: Factorization of cosine functions on compact connected groups 655

Zudilin W → Hessami Pilehrood KH
